LEWIS & Co.

MONACO NESTING SIDE TABLE (ALASKA)

Whether as a standalone statement piece or paired with your favorite armchair, the timeless design and solid marble construction of our Monaco Nesting Side tables are a true testament to the artistry of nature. Black metal bases are paired with the black and white tones of Alaska marble.

Please note: Variations in the natural veining and colouration of marble make each piece unique and no two pieces of marble are exactly alike. Marble and stone pieces are porous and are therefore susceptible to marking and stains.
